I am a 14 year old passionate developer and high school student with a remarkable 5-year journey in the world of technology. My expertise spans across diverse domains, including Embedded Systems, IoT, software development, and multiple programming languages. But my journey doesn't stop here; I'm on a relentless pursuit of knowledge, eager to explore beyond existing boundaries. My ultimate goal is to leverage my skills and make meaningful contributions to the ever-evolving field of technology.

EXPERIENCE

India's Future Tycoon Season #3 2021

I was one of the Top 6 Finalists in an entrepreneurial competition hosted by IFT and NITI Ayog, making me the youngest finalist.

My project focused on creating a speech-capable virtual assistant to enhance the efficiency of online classes for teachers and students.

ATL Marathon 2021 & 2022

After hearing about a friend's experience, I created a farm automation solution and a website platform called Hustler's Tycoon to teach people how to be entrepreneurs.

Hustler's Tycoon:- <http://bit.ly/3YYU1hp>

International Asteriod Search Campaign (IASC)

I always wondered "What is beyond these stars?". So I participated in IASC 2022 and collaborated in near-earth asteroid search using the data provided of PANS-STARS II telescope by IASC.

EDUCATION

Currently studying high school - Class 10th

DAV Public School, Sahibabad
Ghaziabad, Uttar Pradesh 201005

Subjects:-

- AI
- Hindi
- Mathematics
- Science

SKILLS & PROFICIENCIES

- Learning More.....

**Indian Institute Of Tech. (IIT) Bombay's
Techfest 2022 Youngest National Finalists &
Most Innovative Participant Award**

After failing at school exhibition 2 times, about automation. I developed an OS with my friend which took us to IIT Bombay, the dream of every engineering students while we were in 9th std.

Won, National Finalist and Most Innovative Participant award

**George Mason University's Startup Accelerator
participant 2023 (USA)**

I wanted to learn more about entrepreneurship. So, I participated in Virginia's Smart City Innovation Challenge and also got selected for 2nd round, took interviews of several industrialists and worked with David Powell, one of the most experience person in several fields.
